

# Absorbent Roll (216L) Multi-Purpose

S01R32

## Product short description:

Water-absorbent rolls. Absorb all liquids (hydrocarbons, water, chemicals etc), ideal for industrial use. 100% polypropylene, they have a higher absorption power than a traditional absorbent for a longer period of use. Even when saturated with liquids, they offer high mechanical strength thanks to their superior reinforcing fleece. The honeycombed material of the rolls allows high absorption of all industrial liquid spills or leaks and superior durability for tasks requiring a large cleaning ...
