

Spill absorption kit 20 L - All liquids

S01T31

Product short description:

Absorption capacity of 20 litres. The bag packaging allows the kit to be inserted anywhere. Small size to effective chemical spill control. Strong, watertight bags in yellow nylon with a transparent side for better monitoring of the contained stock. Bags equipped with a handle for easy transport. Bags can be customised with your colours and logo (ask for our conditions). Each kit contains the products necessary to:

- o Contain and stop the spread of pollution (socks)
- o Absorb liquid on the ground (shear...)
